What teachers like you are saying about the Research-Based Reading Intervention Program:

"This tool **raised 4 of my students reading levels by one year in three months**."

- Theresa P.

"My students were very proud of themselves as they could **DAILY see improvements in reading when using this resource**! It helped them to read more carefully and attentively to all the words they see and not simply guess. I liked it because **it gave me something tangible to do with little prep for struggling readers** who were behind in reading by 2 or more grade levels."

- Perry M.

"Absolutely wonderful! I wish I could afford them all they are well worth it. **I have watched them work wonders all year and my reading interventionist actually understands it with little direction**!"

- Hawkins Hullabaloo

"Because this is **so interactive** and **creates a purpose for repeated reading**, **I have intervention students that have gone from 1st grade reading levels to 5th grade**! Thank you!"

- Cristina M.

What teachers like you are saying about the Research-Based Reading Intervention Program:

"I have all of your sets, and they **continue to be one of my most used resources with my IEP reading students**! Very engaging and I love that you have them at all instructional levels! Thank you!"

- Lisa M.

"This was **a lifesaver**! We revamped our entire intervention/sped/etc model this year, and I needed something that **I could implement without a lot of prep**. Thank you!"

– Holli Baldwin

"I have used this bundle in my fourth-grade classroom, and I plan to use it in my upcoming 2nd grade classroom! The resources in this bundle **allowed me to track student progress with a breeze and allows me to help students gain confidence with their reading**!"

- UnicornGadegets

"This resource is great. I have **used it with many different grades and readers, I think it really helps improve reading comprehension**!"

-Hailey Stuart

What teachers like you are saying about the Research-Based Reading Intervention Program:

"I have **used these RTI resources for a number of years now and I see progress in reading and DIBELS scores EVERY year**! They are wonderful resources that I and **my aide can easily use each day during RTI Groups**." Michelle Coster

"**My students loved using this resource! They were engaged**."

- Jodi O.

"I love using this resource in small groups! It **reduces so much planning time**. I am able to plan my guided reading groups very easily and **I love that all parts of a guided reading lesson are included**!"

- Ali Brantley

"This is an **amazing product and worth every cent**. I used these to **differentiate easily for nightly reading homework**. We also used these to **work on fluency in reading**. Thank you for your time and talents!"

-Melissa B.

COMMON QUESTIONS ANSWERED!:

Q: Are each of the passages leveled separately?

A: Each passage is not leveled separately. I believe students can read on more than just one reading level. I think we limit our kids when we place them on only one level. That is why each set is a 'range' of 3-4 levels. If your students struggle reading the passage independently, it's a perfect opportunity for reading instruction and modeling of reading to occur!

Q: Is this program research-based?

A: Yes! I had a pilot team that was in place for two years. They used the program in a variety of ways and reported data to me. You can see the research HERE. Also, the program was designed after careful research in the best practices in reading instruction. Multiple professional development resources created from decades of research were studied and used as theoretical foundations to the program. The comprehension, word work, and vocabulary are all designed to specifically match the learning needs of readers at each level range.

Q: Can parents do this at home?

A: Absolutely! The program is designed with careful instructions so that parents, aids, and school volunteers can easily administer and assess students' reading skills. It is very easy to follow! Even students can work independently or with partners after they complete a few passages.

Feedback from a Parent:

"I've been using this with my daughter in home school, who has previously struggled with reading and has several learning challenges. I am very pleased with the results so far. She finds the worksheets engaging. The readings and exercises are challenging, but not overwhelming or frustrating. The worksheets give me very good information about what to help her work on next. I also like how the packet offers different formats to present the information. My daughter can be confused by certain formats, so it's great to be able to choose the one that best suits her learning needs!"

- Melissa C.

COMMON QUESTIONS ANSWERED!:

Q: What reading program did you use to level the ranges?

A: I used Fountas and Pinnell for my reading levels. If you use a different program you can match it up with the conversion chart found here.

Q: Are there answer keys provided?

A: Yes! There are answer keys for each of the comprehension questions in every passage. There are also complete answer keys for the word work, vocabulary, and comprehension.

Q: How many of the passages are fiction and nonfiction?

A: In almost all the sets it is a 50/50 split, with 10 passages being fiction and 10 being nonfiction. There are fantasy, realistic fiction, biographies, informational, and content-specific passages to name a few. The passage topics were carefully matched to common interests and understandings of students at each level.

Q: About how long are the passages?

A: The passage lengths vary by their range. Here is a breakdown of passage lengths by levels:

Levels A-D >> 50-65 words
Levels E-G >> 95-125 words
Levels H-K >> 140-170 words
Levels L-P >> 200-240 words
Levels Q-T >> 255-320 words
Levels U-W >> 255-320 words
Levels X-Z >> 255-320 words

Q: What is the difference between the first and fifth set in every level range?

A: As far as the levels and passage difficulty, there is no difference from set one to set five. The sets do NOT get increasingly more difficult from set one to set five. The difference in each set is 20 new reading passages, along with different comprehension, word work and vocabulary skills to practice.

COMMON QUESTIONS ANSWERED!:

Q: Do you use a new passage every day?

A: You can! But you do not have to. The program is designed to be used in many ways (see 'Ways to Use the Program'). Some teachers chose to focus on one passage for an entire week, while others move into a new passage each day. It truly depends on your schedule and the learning needs of your students!

Q: Do the students complete the passages independently?

A: They can, but if they need help, you can certainly do so. It is totally open to your students' needs how you would like them to complete the work each day! Every classroom will be slightly different based on what works best for them!

Q: How did you determine that the passages fit within each level range?

A: I used a combination of four things to determine that each passage was appropriate for the range it is in. First, I researched the Continuum of Literacy Learning by Fountas and Pinnell. I studied what readers can and cannot do at each of the guided reading levels in the Continuum. Second, I compared the passages to other texts at those levels to be sure the text difficulty, content, and sentence structures were appropriate. Third, I used the Fry Readability Scale to calculate each passage's grade level. And finally, I used my training, experience, and understanding in theory as a Literacy Collaborative Coordinator to verify that the passages were appropriate for each level range.

Q: How can I gauge progress monitoring if the passages don't have one reading level?

A: This is a great question. I believe kids are more than capable to perform on a range of levels, not just one. I use the progress monitoring data not so much to put them on one level as I do to see reading growth. I look at how they are growing in their comprehension, word work, vocabulary, and fluency skills. When I see growth in these key reading areas, I know they are becoming stronger readers, regardless of the text level. I know many teachers who use the program and progress monitor these skills. Then, they take a quarterly benchmark assessment with a leveled standardized program and see huge growth!

Rationale:

*** The purpose of this resource is for teachers, tutors, school volunteers, and home school parents to have access to a systematic intervention program that gives struggling readers extra practice each day.

*** Each passage is NOT individually leveled, however, they ***range*** from Fountas and Pinnell Levels A-D.

*** Illustrations for each text are provided at this level.

*** You may need to orally read the comprehension multiple choice questions for each passage at this level as well.

The daily intervention lessons contain extra practice with:

1. Reading Fluency
2. Comprehension (with weekly targeted skills)
3. Word Work (with weekly targeted skills)
4. Vocabulary (2 daily vocab. Words in every passage)

*** The intervention program is flexibly designed to be used either...

1. One-on-one with teacher
2. Independently during an intervention time
3. With a partner, tutor, or school volunteer (the students and teacher pages include clear directions for an aide, volunteer, or even older student to administer the intervention.)
4. In a small guided group
5. In a home school setting

*** The Intervention Program includes...

1. 10 fiction reading passages with appropriate content and language for levels A-D.
2. 10 nonfiction reading passages with appropriate content and language for levels A-D.
3. Reading passages in 4 different student-friendly formats
4. Teacher/tutor fluency page with clear directions, running record with word count, and space for scoring fluency skills.
5. Targeted Comprehension questions for each passage
6. Targeted Word Work activities for each passage
7. 2 Bolded vocabulary in each passage, with space for students to draw each word.
8. Teacher/tutor comprehension, word work, and vocabulary instruction pages with space to collect data and additional comprehension questions for guided instruction.
9. Progress monitoring pages for teachers/tutors to track student growth with fluency, comprehension, word work, and vocabulary.

"My Dad is Obsessed"

Most people think that only kids can get addicted to video games. But that's not true. My dad is completely obsessed with playing video games. His favorites are the Army ones. The first thing he does when he comes home from work is grab a snack, change into his sweatpants, rush into the living room, and start playing. He's like a teenager. He uses a headset to talk to friends from all over the world, while they play games together. Sometimes I can hear him screaming or barking out orders to his friends about where to hide and who to shoot. When my dad first started playing games, I thought it was pretty awesome. I thought I had a really cool dad. But, now that he's totally obsessed, I don't like it at all. He doesn't spend much time with me at all anymore. It's annoying. I tried telling him how I felt, but he completely ignored me. I tried to be patient and understanding, but I'm now to the point where I think I need to do something drastic, just to get his attention. I decided to set my alarm for the middle of the night. My plan was to get up and unplug dad's game system, and bury it behind boxes in the garage. When the alarm rang, I snuck downstairs, carefully unplugged the game system, and hid it in the garage. I couldn't fall back asleep. I was up playing out every possible scenario when my dad found his games missing. Would he yell? Would he call the police? I didn't have to wait long to find out. Next thing I knew dad was in my room. He knew it was me who hid the games. He said he didn't realize that I was so upset. He apologized and promised to spend more time with me.

Understand It!

Answer the following questions after reading:

1. What is the dad like?
   a. likes to play sports
   b. obsessed with TV
   c. works too much
   (d.) obsessed with games

2. One of the most important things about this text is...
   (a.) spend time together
   b. eating snacks
   c. learning video games
   d. setting an alarm

3. What changed over time?
   a. the boy started playing games too
   (b.) dad played less games
   c. dad played more games
   d. nothing

4. What other problems might make sense in the story?
   a. they were both happy
   b. dad stopped playing
   c. the boy was happy
   (d.) the boy could have ran away

"Intervention by Grade Level"

The reading passages in this program are leveled at a fourth grade average reading level. They all fall within Fountas and Pinnell's levels Q-T.

Below are suggestions for which students at each grade level would greatly benefit from this program.

Grade 3: Students who are reading and comprehending above grade level would benefit from an advanced intervention with this program.

Grade 4: Students reading slightly below grade level would benefit from this intervention. The passages could also be used as extra practice for those reading on grade level.

Grade 5: Students reading and/or comprehending .5-1 year below grade level would benefit from this intervention.

Grade 6: Students reading and/or comprehending 1-2 years below grade level would benefit from this intervention.

Grade 7: Students reading and/or comprehending 2-3 years below grade level would benefit from this intervention.

"Tips for Fluency"

The following are tips for administering and scoring the fluency portion of the intervention program

Tip #1: If a student gets stuck on a word, wait 3 seconds and then tell the student the word. Circle the word as an error. This will also impact the student's Rate and Tone score.

Tip #2: If a student repeats a word, it is not an error. But it will likely affect the student's Rate and Tone score.

Tip #3: If a student reads a word incorrectly, it counts as an error. Circle the word. This will impact both the Rate and Tone score and likely some comprehension.

Tip #4: If a student adds a word that is not part of the passage, write the word in and count that as an error. √

Tip #5: If a student reads a word incorrectly and then goes back to fix the word, it does not count as an error. It is called a self-correction. Put a next to the word. SC are great because it tells us that the student recognized the original word did not fit and it needed to be fixed to have the text make sense.

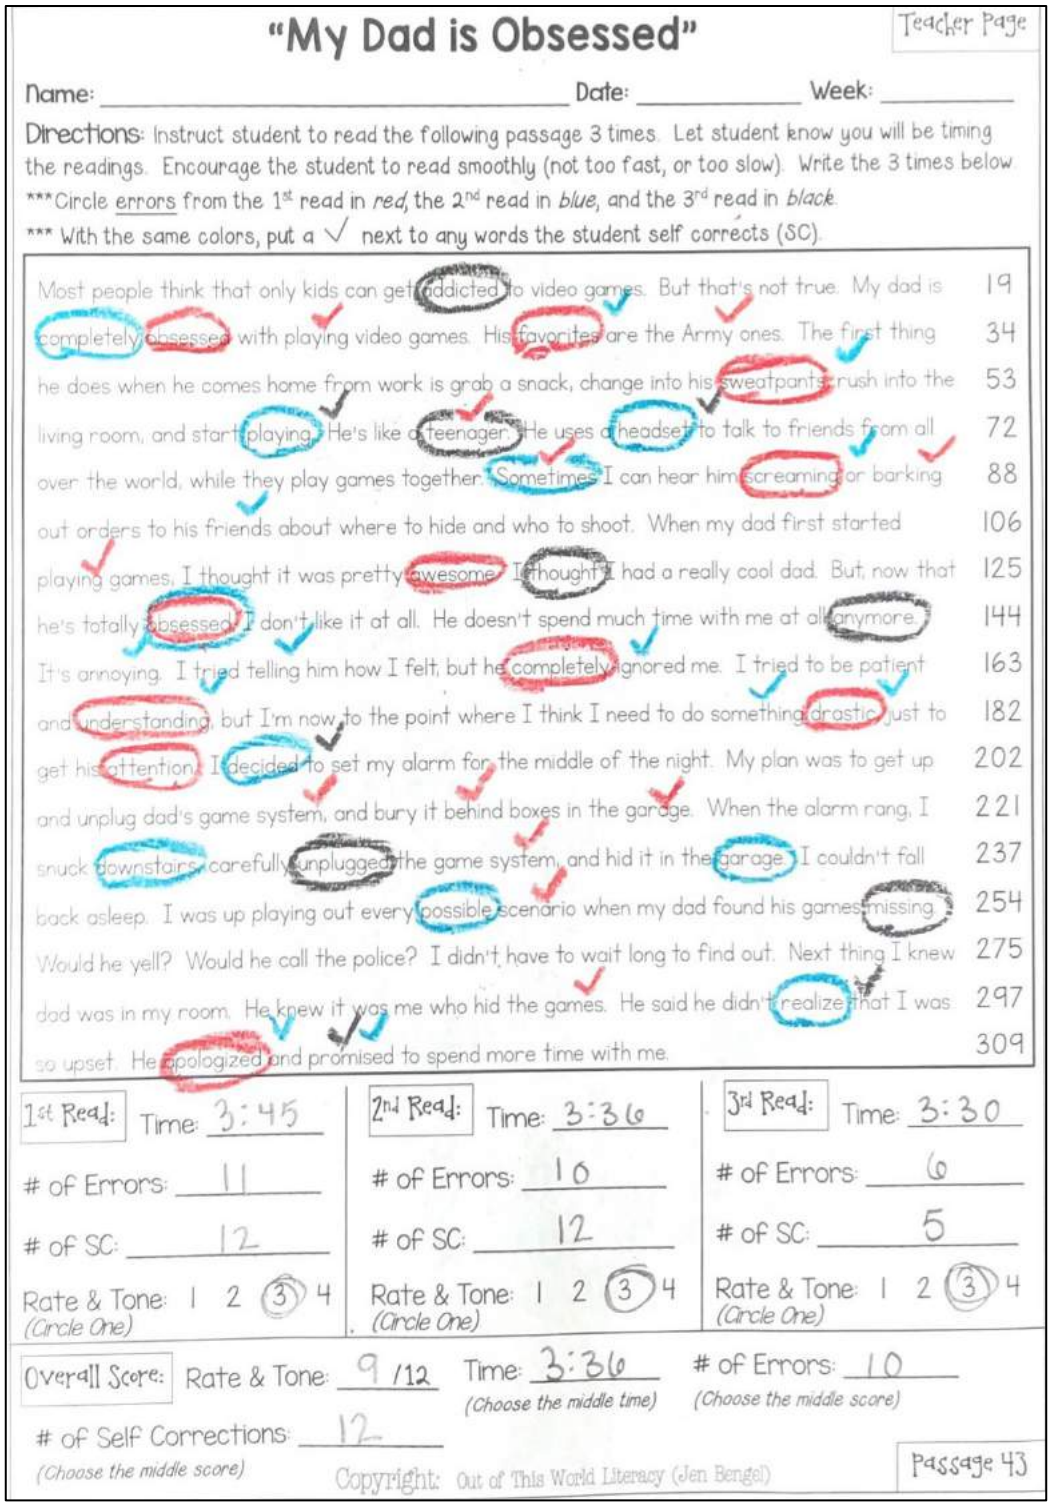

Tip #6: Time the student and document how low he/she takes to read the passage each time. Don't be afraid to show the student the results. This is a great opportunity for a lesson on how rereading can improve our fluency!

Tip #7: For scoring the Rate and Tone, consider the flow of the reading by asking yourself the following questions;

1. Did the reader repeat a lot of words or phrases?
2. Did the reader pause at commas and stop at periods?
3. Were there many unnatural pauses and breaks?
4. Did the reader read too fast? Too slow?
